

100kW lithium battery energy storage cabinet for production line in Xiong an New Area

Our factory operates a 24-hour automated production line specializing in the manufacturing of high-voltage lithium batteries and integrated lithium battery energy storage systems for commercial and ...

For high-voltage lithium batteries, we accept customized requirements, which can be configured and produced according to specific requirements of customers. At the same time, we provide a 12-year ...

Continuously tracks battery state (SOC, SOH, temperature) and grid conditions, enabling precise energy distribution to maximize self-consumption and minimize grid dependency.

The modular design makes the parallel solution more flexible and has higher energy density, which significantly improves the economy, safety and construction convenience of ESS projects.

Configured with a rack-mounted modular PCS, it supports parallel connection of multiple machines and has good scalability; the number of PCS modules and the total battery power can be selected ...

With a focus on innovation and reliability, we empower clients--including utilities, energy enterprises, and industrial operators--to optimize the efficiency, stability, and sustainability of their power ...

Founded in 2009, SineSunEnergy has been focusing on lithium battery energy storage product development and application, providing leading lithium battery energy storage system integrated ...

China's leading BESS company, dedicated to developing the best battery energy storage system and improve the efficiency of renewable energy storage.

Engineered for commercial and industrial resilience, this high-density solution delivers massive capacity (215kWh) and robust power (100kW) in a single, scalable cabinet.

100kW lithium battery energy storage cabinet for production line in Xiong an New Area
