

14.8V 50Ah Lithium-Ion Battery - Ultimate Power Solution for Live Imaging & Forward-Facing Sonar | Extended Runtime | Bluetooth Monitoring | USB-A & USB-C | IPX8 Waterproof

Our versatile all-in-one Inverter/Charger/MPPT models ensure efficient power conversion, reliable battery charging and maximised solar yield, all within an easy-to-install enclosure.

Explore versatile lithium battery inverters compatible with solar, vehicles, and more. Find options with USB ports, remote controls, and hardwire capabilities.

Choosing the wrong inverter for lithium battery use can lead to inefficiency, system instability, or even battery damage. Unlike lead-acid systems, lithium batteries operate across a different voltage curve, ...

Each LiPo cell has a nominal voltage of 3.7V. Multiply that by four, and you get 14.8V. This voltage level is significant--it means the battery can provide strong, consistent power output for ...

By using our site, you agree that we and Microsoft can collect and use this data. Our privacy statement has more details.

Home > Custom Lithium Ion Batteries > Li-Ion/Polymer Battery Packs > 14.4V-14.8V (4S) Li-Ion/Polymer Battery Packs > 14.4V-14.8V 15.2Ah-100Ah Battery Modules

Nowadays, Lithium- Iron - Phosphate (LiFeP04) also called LFP Battery (Cell Voltage 3.2V) & Lithium ion (NCM) Battery (Cell Voltage 3.7 V) are Most Selling Batteries.

While you are not required to use our recommended battery pack and charger, our battery packs offer the best performance without any compromise among many factors such as safety, power, size, ...

Our 14.8V Lithium Battery series delivers stable output through a 4-cell configuration, offering high energy density, excellent safety, and reliable performance for industrial tools, medical devices, UAVs, ...
