

## **15kW outdoor cabinet for microgrids on construction sites**

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC-compliant energy storage ...

The MOBICELL-15K is a modular three-cabinet clean power system engineered to replace diesel generators for backup and mission-critical power. Ideal for telecom, industrial and remote off-grid sites in Canada & USA

The Outdoor Cabinet Energy Storage System is a fully integrated solution that combines safe battery storage, intelligent power management, and weatherproof protection for solar and telecom applications.

Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55-rated cabinet for enhanced protection against water and dust, ensuring ...

Designed for outdoor deployment, the cabinet features weather-resistant construction, efficient ventilation or air conditioning, and options for battery and DC distribution integration.

Fully integrated, outdoor NEMA 3R and NEMA 4X nanogrid and microgrid cabinet systems. Configurable with internal power conversion and power distribution and energy storage or energy storage only or hybrid ...

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.

Application: frequency regulation, voltage support, renewable energy integration, peak load shifting, microgrid and backup power supply. Cooling method: forced air cooling or liquid cooling. Container type: 20ft, 30ft, 40ft.

To this end, Rittal offers you a portfolio of secure and robust outdoor enclosures, together with matching climate control systems, for optimum protection of your installations.

Friendly & Flexible All-in-One battery and hybrid inverter. Modular design, highly integrated. Standardized design, easy to expand and maintain. Support parallel installation. Fast deployment and quick setup on-site. ...
