

I am really satisfied with this product so far, it charges my 5kwh battery during car drives. Loses a bit of power throughput when it gets warm, but still charges at least around 800-900watts continuous. I ...

Buy Waterproof 24V to 13.8V 30A 414W Step Down DC/DC Power Converter Regulator at Walmart

· Assembled with smart chip, features Over-current /Over-load /Low-load /Short-circuit /Over-heat intelligent protection. · These voltage converters are excellent power transformers, can work safely ...

Home > All Industries > Buck DC-DC Converter > 24v to 13.8v Buck DC-DC Converter Move the mouse over the graph to enlarge the picture

Current Logic Online Shop 24V to 13.8V, Step-down, 10A, 140W, waterproof [CLL138-24S13.8] - General spec: Input Range: 18 - 40 VDC Output: 13.8 VDC Output Current: 10A Size: 80*70*30 (mm) ...

Input voltage range: DC 18-35V; Output voltage: DC 13.8V (non-adjustable); Output current: 30A; Output power 414W. High conversion efficiency: Synchronization rectification ...

Product name:YUCOO IP67 buck converter 25a 24v to 13.8v dc-dc step down converter;Input voltage range:18-32VDC;Rated power:345W;Waterproof:IP67;Warranty:1 Year;Material:Aluminum ...

100% full power and stable current output, non-isolated module. Waterproof level IP68 and anti-shock protection, Ultra-compact size, lightweight. Industry grade DC 24V to DC 13.8V converter, efficiency ...

Specially designed for off grid users who need to step down from 24vDC to 13.8vDC, Applications include Boat, RV, Camping and or Wind Turbines.
