

What is a sunsynk 5kW AC Ecco 6.5kwp inverter?

The SunSynk 5kW AC ECCO 6.5kWp Inverter is the next generation of super hybrid inverter with a 6500W MPPT and a rated AC output of 5kW resulting in a system that can generate sufficient energy in Winter months to offset usage and charge a connected battery. The inverter boasts additional features such as;

What is the 5.5kW Hybrid Inverter?

The 5.5kW Hybrid Inverter is a mid-range on-grid parity inverter that is our best-selling model with 2 MPPT ports. It is perfect for most applications, especially for domestic premises with sufficient roof space for solar or wind power.

How long does a sunsynk battery last?

Adding a Sunsynk battery to your existing inverter will extend the inverter warranty to 10 years. This must be done within 3 months of the original installation for eligibility. If done later than this, the battery will be registered separately at 10 years, and the inverter maintains a 5 year warranty.

How long does a sunsynk inverter last?

If done later than this, the battery will be registered separately at 10 years, and the inverter maintains a 5 year warranty. Installations with Sunsynk products now need to be registered here to gain full activation of the warranty.
