

Are solar panels a good investment in Malaysia?

A solar panel installation in Malaysia can be one of the best investments you'll ever make on your home or commercial facility. But with the growing advancements in solar power system technologies nowadays, how do you choose the best possible system for your unique requirements? Which solar panels in Kuala Lumpur should you go for?

How much does a solar panel installation cost in Malaysia?

A typical residential solar panel system in Malaysia is 6.6kW and a good quality installation will cost between RM18,500.00 up to RM30,000.00. But why the big difference in cost? Whether a 6.6kW system is an appropriate size installation for you or not is a good question and will depend on your electricity usage.
