

What is the ewoyaa Lithium Project?

The Ewoyaa Lithium Project is considered to be among the industry's leading spodumene assets and is set to produce a lithium product capable for conversion for use in EV batteries and power storage.

What is Atlantic lithium?

Atlantic Lithium holds a combined 1,280km² tenure across Ghana and Cote d'Ivoire. Lithium demand is forecast to grow exponentially in line with the adoption of electric vehicles and for use in energy storage, in line with efforts to meet global climate change objectives. Track record of significant mineral asset discoveries

Is ewoyaa Ghana's first lithium mine?

Ewoyaa is a 36.8Mt @1.24% Li₂O spodumene pegmatite resource on track to become Ghana's first lithium mine. The Project is funded under a co-development agreement with Piedmont Lithium and benefits from governmental support, exceptional local infrastructure and close proximity to potential off-takers, underlying the Project economics.

Why do we need a battery supply chain in Africa?

The rapid expansion of renewable energy projects presents a huge opportunity for local battery manufacturing. Currently, 100% of Li-ion battery cells deployed in Southern Africa are imported, leading to dependence upon increasingly unstable global supply chain inefficiencies. We are leading the charge in building Africa's battery value chain by:

Large-scale battery systems like those developed by Accra Large Energy Storage Battery Company bridge the gap between intermittent renewable sources and consistent power supply. Imagine solar ...

BridgeVolt Energy Solutions LLC is a renewable energy engineering solutions company located in Tema, Greater Accra Region, specialized in developing, and deploying battery energy storage ...

Frequent power outages, rising electricity prices, and high costs of diesel-powered generators have made stable power supply a critical need for businesses and households in Ghana. ...

In a city like Accra, where energy demand grows by 6% annually, reliable power solutions aren't just nice-to-have - they're essential. Energy storage equipment manufacturers are stepping up to bridge ...

The B2B platform for the best purchasing decision. Identify and compare relevant B2B manufacturers, suppliers and retailers Supplier discovery Energy & Sustainability Waste Management Lithium Close ...

AI and IoT integration optimize energy storage performance. LondianESS: A Leader in African Energy Storage Solutions As a pan-African energy storage manufacturer, LondianESS is at the forefront of ...

VANTOM POWER is the leading provider of Battery Energy Storage Systems (BESS) in Ghana. With more than 10 years of experience in the energy storage industry, we have established ourselves as a ...

The Ewoyaa Lithium Project is considered to be among the industry's leading spodumene assets and is set to produce a lithium product capable for conversion for use in EV batteries and power storage.

The project is being advanced to production under an agreement with Piedmont Lithium. Will Ghana become the first country in West Africa to produce lithium?Ghana is set to become the first country in ...
