

The Electricity and Water Authority (EWA), Bahrain announces the receipt of bidders proposals for the establishment of a 44 MWp Solar Photovoltaic (SPV) Power Plant.

Bahrain's Electricity and Water Authority (EWA) has issued a tender for the construction of a 100 MW solar power plant in Bilaj Al Jazayer, on the Southwest coast of Bahrain.

Located in southern Bahrain near Bilaj Al Jazayer, the 1.2 sq km facility will utilise state-of-the-art solar technology to support the Kingdom's growing energy needs and ensure long-term ...

Set for completion by Q3 next year, the project is being implemented by EWA as part of its key initiatives in support of the kingdom's energy transition pathway, reported BNA.

Scheduled for completion in the third quarter of 2027, the plant is expected to generate enough electricity to power more than 6,000 homes and cut over 100,000 tonnes of carbon ...

The facility will be built in the Al Dur area of the Southern Governorate and will comprise around 135,000 solar panels. Installation is expected to be completed by the third quarter of 2026, ...

The Belaj Al-Jazaer solar IPP project will be Bahrain's first grid-connected solar PV power plant developed under a public-private partnership (PPP) framework on a build-own-operate basis. It ...

The solar power plant will be located in the southern region of Bahrain, near Bilaj Al Jazayer, covering a total area of approximately 1.2 square km. The project will utilise the latest ...

Bahrain's proposed renewable energy pipeline consists of solar, wind, and waste to energy technologies, with the development of carbon-neutral small modular reactor (SMR) nuclear ...

Bahrain receives four competitive bids, from \$36M to \$147M, for its Sakhir solar PV project. Learn about the companies involved and the Kingdom's renewable energy goals.
