

The Mini C& I ESS has numerous applications such as Microgrid, backup, off-grid peak shaving, time of use, self-supply, demand response, and Virtual Power Plant (VPP).

The BHF-X60 cabinet can meet the energy needs of large residences and small businesses. Supports up to 200% PV oversizing capacity to ensure sufficient power and reduce dependence on the grid, ...

EMS, hybrid inverter and BMS integrated technology, power supply redundancy ...

The AceOn Stack 24-60kW 48-120kWh modular battery storage system is fully integrated with a 3 phase inverter that can operate on or off grid, up to 10 battery storage modules and an energy management ...

This product integrates a power conversion system (PCS), batteries, a battery management system (BMS), thermal management, power distribution, and fire protection, adopts single-serial design, and ...

Designed for commercial, industrial, and microgrid applications, it integrates a 30kW PCS with a 60kWh LiFePO4 battery bank to provide safe, efficient, and reliable power storage.

Integrating power generation, conversion, storage & utilization in a robust unit, it features high-performance hardware & advanced IoT software to support self-consumption, ToU optimization & ...

EMS, hybrid inverter and BMS integrated technology, power supply redundancy design, support black start function, grid operation, etc Suitable for high-rate cyclic charging and discharging scenarios

With a 30kW power output and 60kWh energy capacity, it combines LiFePO4 battery technology, hybrid grid compatibility, and advanced safety features in a sleek, IP55-rated design.

Energy storage system series industrial and commercial outdoor energy storage integrated cabinet

Compact 30kVA all-in-one C& I energy storage system with 40-60kWh options, ideal for small businesses, EV charging, telecom, and microgrid backup.
