

The "BESS-as-a-service" model, in which consumers access the benefits of storage without purchasing the equipment outright, is gaining traction among manufacturers and integrators ...

A complete 2026 guide to Brazil's commercial & industrial energy storage market. Learn policies, PDE 2034 trends, ANEEL regulations, 100-241 kWh system selection, 2 MW parallel ...

The GeoStorage Project includes the development of solutions such as a hydrogen super battery, energy storage with compressed air, and blue hydrogen in the pre-salt layer.

Explore Brazil's battery energy storage systems, focusing on current regulations, investment opportunities, and the role of these systems in the energy transition.

Consumers and businesses across Brazil are increasingly adopting portable energy storage systems that integrate easily with renewable energy sources, especially solar PV.

Solar deployment has been a success story in Brazil, but the need for more battery energy storage capacity is increasingly urgent. The Brazilian energy storage market is at a turning...

New battery energy storage technology is gaining traction and promises significant savings on electricity bills. The storage of electrical energy in batteries has been gaining ground in ...

Brazil's push to integrate energy storage into its power system is moving from pilot deployments toward industrial scale, with WEG confirming plans to build a dedicated battery energy ...

UCB is a leading energy storage solutions provider in Brazil. With 51 years of experience in the market, the company combines extensive experience and electronic manufacturing with the ...

Featuring Brazilian engineering, Powersafe is investing in its versatile solution and being official distributor of Ecoflow's portable power stations in Brazil.
