

Edge Computing Communication Cabinet IP67 After-Sales Service

What is a common edge integrated cabinet solution?

To meet operators' needs for rapid deployment of MEC, ZTE provides the Common Edge Integrated Cabinet Solution. Hardware integration for one-stop delivery: The MEC servers, switches, firewalls, MECs, and software are pre-integrated in the integrated cabinet.

What are edgerack integrated micro data center cabinets?

The EdgeRack integrated micro data center cabinets were manufactured to solve networking problems common to organizations across the globe. They're suitable for businesses big and small and are deployable in both traditional and non-traditional IT environments.

What is edge computing & how does it work?

Edge computing is a distributed computing framework with the goal of processing data closest to where it's actually generated (Ex. IoT devices, sensors, local servers, etc.). Doing so reduces network latency, saves bandwidth, and gives businesses near real-time insights.

The integrated cabinet can be used immediately after it is powered on and goes online in 15 minutes. With small footprint, high integration, and low equipment room requirements, the MEC service can be ...

With a R& D team from Singapore, the global business manages ...
