

GCLSI offers a wide variety of high quality products for all PV applications and environments, including 182mm, 210mm bifacial modules and Topcon modules. All products undergo the most rigorous ...

GCL has not only ended China's PV industry dilemma of "two ends abroad", but is now playing an important role in promoting the use and the large-scale applications of solar energy in the world.

Solar manufacturers announced a range of module sales agreements, supply deals and new products last week at SNEC 2025 PV Expo in Shanghai.

At Intersolar Europe 2025 in Munich, GCL System Integration (GCL SI) unveils revolutionary technologies and full-scenario solutions, showcasing its leadership in PV innovation.

From June 13 to 15, the 17th edition of the International Solar Energy Photovoltaic and Smart Energy (Shanghai) Conference and Exhibition, the largest and most influential photovoltaic event globally, ...

A module from GCL System Integration Technology Co., Ltd. achieved a conversion efficiency of 23.43% under low-irradiance operating conditions of 800 W/m², demonstrating ...

GCL System Integration Technology Co., Ltd. (GCL SI) made a powerful impact at the event, unveiling its groundbreaking SiRo series modules--the world's first carbon-chain-based solar...

China's GCL SI says it will invest \$2.5 billion to build a new solar panel factory capable of producing 60 GW of panels a year -- enough to meet half of global demand.
