

Government Procurement of Single-Phase Photovoltaic Energy Storage Containers

These resources provide information and best practices for federal facilities interested in procuring on-site solar photovoltaic (PV) systems.

In order to systematically assess the economic viability of photovoltaic energy storage integration projects after considering energy storage subsidies, this paper reviews ...

This chapter supports procurement of energy storage systems (ESS) and services, primarily through the development of procurement documents such as Requests for Proposal (RFPs), Power Purchase ...

The Federal Energy Management Program's (FEMP) Distributed Energy and Energy Procurement initiative helps federal agencies accomplish their missions through investment in lasting and reliable energy-generation ...

Learn about the essential elements of a solar RFP; receive introductory guidance on how to evaluate any proposals received; and be directed towards tools, resources, and sample documents that can ...

This energy storage technical specification template is intended to provide a common reference guideline for different stakeholders involved in the development or deployment of energy ...

The materials included are designed to give specific examples of the elements that should be included in a solicitation for the procurement and installation of a battery energy storage project that is designed to provide ...

The 4 containers will be placed on the ShOC-N campus and the Government will load items from the second floor into the container. The Government will reach out to the Contractor when it is time for the ...

Promote common and good practices in federal sector renewables procurements that are recognized by the developer and project finance community. Template sections are divided by subject. Background information ...

Chapter 1 (Market Evolution) provides historical policy and planning context to the evolution of California's market for stationary energy storage from about 2010 when California Assembly Bill 2514 directed the CPUC ...
