

This industrial and commercial battery storage system is the ideal compact solution for your battery projects to work alongside solar PV, EV chargers and back up power requirements.

THES38BA-100/215 air-cooled energy storage cabinet with 100kW/215kWh capacity. High-efficiency LFP system with >6000 cycle life for data centers, renewables, and backup power.

Discover the advanced 100KW-215kWh Outdoor Cabinet Energy Storage System with air-cooled technology. Ideal for peak shaving, backup power, and enhancing renewable energy use in industrial ...

With intelligent air cooling, IP55 protection level, and optional WiFi/GPRS remote monitoring, you can rely on this system for optimal performance and safety. Stay ahead of the curve with our energy ...

Our Outdoor 100KW/215KWH Cabinet Energy Storage System boasts several notable advantages. Firstly, its modular design ensures easy installation and maintenance, with the flexibility to scale ...

GSL-100 (DC50) (215kWh) (EV120) 100kWh Solar Battery Storage Cabinet 280Ah LiFePO4 Battery Air-cooling Photovoltaic Charging Energy Storage Cabinet is an efficient and reliable energy storage and ...

EFIS-D-W100/215 is specially designed for small-scale industrial and commercial energy storage applications. It features a modular, factory pre-installed design that requires no on-site installation or ...

It has the characteristics of high energy density, high charging and discharging power, and long cycle life.

Integrates the battery system, Battery Management System (BMS), Energy Management System (EMS), modular inverter (PCS), and fire protection system into a single unit.

With the P500E, you can transfer energy bi-directionally to the battery, grid and DG, helping you to achieve more functionality and maximise the benefits of your energy storage system.
