

Launched in stages beginning in 2016, the Noor solar project has rapidly grown into the world's largest concentrated solar power (CSP) facility, with a generation capacity of more than 580 ...

New projects are underway in regions like Tata and Zagora, where high solar irradiance promises optimal yields. Feasibility studies released in April 2024 suggest Morocco could ultimately ...

The three new solar projects are Benguerir (67 MWp), Youssoufia (30 MWp), and Khouribga (105 MWp). Together, these projects represent a total investment of around 1.8 billion ...

We are excited to share the news that last week, we signed a 12-year solar power agreement with the manufacturing and logistics company in Morocco, Saray Immo. The \$3,5M ...

Morocco is intensifying investment in solar power in the hope of hitting a target to raise the use of renewables in its energy mix to more than half. The country has set a target of 52 percent ...

Morocco could install up to 28.6 GW of distributed solar, producing 66.8 TWh of electricity and creating a \$31 billion market, according to new research that calls for rapid regulatory action...

Morocco is making significant strides in its solar manufacturing capabilities with plans to build a major solar panel factory in Berrechid, near Casablanca. The country's Minister of Energy ...

With a total capacity of 582 megawatts, it combines concentrated solar power (510 MW) and photovoltaic technologies (72 MW). Its ability to store energy in molten salt allows Morocco to produce...

By Abbas Nazil Morocco has unveiled the Solar Rooftop 500 program in Casablanca, a new carbon finance-backed initiative designed to accelerate commercial and industrial solar self ...

Morocco is seeking to expand its solar power capacity by increasing the number of regions hosting solar plants to ten, with investments exceeding 2 billion dirhams.
