

Expand capacity effortlessly by connecting multiple units, making it adaptable to scenarios ranging from power generation to user-side needs. Experience the future of energy storage with exceptional ...

Designed for demanding industrial applications, off-grid setups, and solar-powered infrastructures, it combines a 100kW hybrid inverter, 207kWh of scalable LiFePO4 batteries, and intelligent EMS in a ...

The HighJoule 100KWh Outdoor Cabinet Series supports RS485, CAN, Ethernet, and Modbus protocols for real-time data transmission. The integrated EMS platform allows for remote monitoring and ...

The MEG 100kW x 215kWh Cabinet is engineered as a modular energy storage building block, ideal for commercial facilities, microgrids, and community-scale projects.

Ideal for microgrids, UPS, and load shifting. The system seamlessly integrates both grid-connected and off-grid functionalities, allowing smooth transitions between different operating modes. Ideal for ...

It is suitable for microgrid scenarios such as small-scale commercial and industrial energy storage, photovoltaic diesel storage, and photovoltaic storage and charging.

Liquid cooling all-in-one solar battery storage system integrates advanced cooling technology with high-efficiency energy storage. 100kw 200kw lithium solar battery designed for seamless solar integration, ...

Perfect for factories, data centers, EV charging stations, and microgrids, this plug-and-play ESS cabinet provides peak shaving, backup power, and renewable energy optimization --all in a compact, easy ...

Wide Applicability: Compatible with standalone energy storage stations, commercial/industrial user-side systems, microgrids, and renewable energy integration. Smart Connectivity: Supports remote ...

THES38BA-100/215 air-cooled energy storage cabinet with 100kW/215kWh capacity. High-efficiency LFP system with >6000 cycle life for data centers, renewables, and backup power.
