What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What are NEMA rated outdoor Telecom enclosures?

NEMA-rated outdoor telecom enclosures are cabinets that meet specific application requirements to withstand outdoor elements. They come in various NEMA standards such as 3,3R,4,4X,and 6. Our telecom outdoor cabinets are factory tested,field proven,and worry-free.

Why should you choose a KDM outdoor telecom enclosure?

A KDM outdoor telecom enclosure protects your telecommunications equipment outdoors and withstands outdoor elements such as temperature extremes,dust ingress,ice,shock hazards,and UV damage. It also safeguards against moisture,condensation,chemicals,and corrosive gases that can affect sensitive components within.

What is an outdoor Telecom cabinet?

An outdoor telecom cabinet protects the cables and equipment that process and reroute information for our communication needs via the internet,television,and other applications. These enclosures include organizing racks and thermal management systems,among other features. What is a fiber cabinet?
