

Analyst Wood Mackenzie has forecast the addition of 160GW of new solar PV capacity by 2034 in South America in a recent report.

All thanks to the inauguration of the largest photovoltaic plant in South America. Located in the Puna of Jujuy, the Cauchari plant has been equipped with more than 900 thousand solar ...

In 2023, the Photovoltaic Systems segment accounted for noticeable share of global South America Solar Panel Market and is projected to experience significant growth in the near future.

South America Solar PV Market Outlook 2025 - This regional report evaluates the 10-year outlook for solar PV power development in South America.

The South America Solar Photovoltaic Market is growing at a CAGR of greater than 11% over the next 5 years. Enel Green Power S.p.A., Trina Solar Limited, Atlas Renewable Energy, ...

In its latest report on the South American solar PV market, Wood Mackenzie has revealed that the region will add 160 GW of photovoltaic (DC) capacity between 2025 and 2034, driven by...

This new publication offers key insights into the Argentinian, Brazilian, Colombian, Mexican, and Peruvian solar sectors, and opportunities for international investment.

This report is an updated and segmented version of our previous South America solar PV outlooks, offering clients a deeper understanding of the factors influencing solar development in the ...

By 2025, South America's solar PV landscape is expected to continue expanding rapidly. Falling hardware costs, technological advancements, and supportive policies will drive growth.

One of the key trends in the South America Solar Photovoltaic Industry is the increasing demand for ground-mounted solar systems. This is due to the fact that ground-mounted systems are ...
