

Norwegian Energy Storage Container Power Station Platform

Will a hydro concession be granted to the illvatn pumped storage power plant?

In April 2020, the Norwegian Ministry of Energy granted Hydro concession to develop the Illvatn pumped storage power plant. An application for a plan change is currently being processed by the Norwegian Water Resources and Energy Directorate (NVE).

How much storage does the Northern Lights CCS project have?

The Northern Lights CCS project off the coast of Norway has enough storage for the equivalent of 750,000 car emissions every year in the first phase. Equinor's Smeaheia storage site, located to the south of Northern Lights, has the potential to increase storage capacity many times over.

Does hydro produce aluminium in Norway?

Hydro currently produces aluminium in Norway with a carbon footprint that is about 75 percent lower than the global average. The goal is to achieve zero-carbon aluminium by 2050. Hydro's Norwegian aluminium plants are mainly covered by long-term power contracts until 2030, but it is urgent to secure new contracts beyond this period.
