

Off-grid solar container for wastewater treatment plants 120 feet

Modular, solar-powered shipping-container systems for remote living and businesses. Complete off-grid power solutions built by licensed electricians at Danger Electric.

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no shading ...

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy when regulatory or client requirements demand it.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Discover the world's leading foldable solar container with 40% higher energy density. Solarfold(TM) by Sunmaygo offers quick deployment & 70% lower costs than diesel. Get your free quote today!

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

Discover the Foldable Solar Container offering lightweight, efficient, and portable renewable energy. Ideal for outdoor adventures, emergency backup, and remote work sites.

Our portable wastewater treatment systems are engineered for maximum performance in every climate zone. We have successfully installed systems in over a hundred countries, from the Arctic to hot desert ...

With a 12 or 24-panel solar array (4 to 8 kWp), 3-stage water purification system, lithium battery storage, multiple output ports, and an optional cellular router/modem, it's amazing we fit it all into a 6ft (2m) shipping
