

The success of this Peru project will serve as a model for future solar rural electrification. There are an estimated one billion people in the world today living without electricity.

By harnessing wind and solar power, the nearby area now has a sustainable and eco-friendly solution that supports local tourism.

RE2 successfully connected almost 143,000 house-holds to the grid and installed an additional 12,000 solar home systems, exceeding targets by 10 percent. Approximately 34 percent of the beneficiaries ...

Empresa de venta, instalaci&#243;n y mantenimiento de paneles solares al servicio del agricultor peruano, para usar las energ&#237;as renovables en sistemas de riego.

Planck Solar Per&#250; ofrece soluciones en energ&#237;a solar fotovoltaica y t&#233;rmica para hogares, empresas e industrias, con equipos de alta calidad y cobertura a nivel nacional.

Kits solares aislada dimensionados para su uso en granja o huerto con los mejores precios del mercado. Permiten consumos variados desde luz, frigor&#237;fico, riego con bomba de agua hasta uso de ...

For this reason, this project proposes the improvement of the efficiency of an autonomous photovoltaic system applied to rural homes in isolated areas of Peru as an alternative for a better use of solar ...

In 2009, we started "Luz en Casa" to bring access to the electricity basic service, through solar home systems, to isolated rural communities in Cajamarca (Peru).

Abstract The present research study aims to improve the efficiency of photovoltaic systems applied to homes in isolated areas. This experimental study was carried using a prototype of a rural house, ...
