

What is a suspended photovoltaic bracket?

Suspended photovoltaic bracket: usually installed at the bottom of buildings or other structures, using steel ropes to hang solar panels, the tilt angle or direction of the photovoltaic bracket can be adjusted as needed. C-shaped steel ground photovoltaic support system is widely used in the construction of photovoltaic power station support.

What is a photovoltaic bracket?

Photovoltaic bracket Photovoltaic support, also known as solar panel support, is an important equipment used to install and support solar panels in solar photovoltaic power generation systems.

What is a ground type photovoltaic bracket?

Ground type photovoltaic bracket: suitable for flat areas, large solar photovoltaic power stations and buildings and other places, can withstand strong winds, heavy rain and other harsh weather conditions. According to the installation method, the ground type photovoltaic support can be divided into simple type, pile type fixed type and basic type.
