

Are solar stocks overvalued?

Following the latest rally, many solar stocks are now "fully valued or overvalued," said Cheng Wang, equity analyst at Morningstar, while maintaining a positive long-term outlook for the sector.

Who are the top rated energy storage companies in the world?

Lithium-ion companies have come out as the top-rated suppliers on a new long-duration energy storage (LDES) leaderboard, while CO2 Battery company Energy Dome is the highest non-lithium company. Power firm RWE is about to start building a 400MW/800MWh BESS project in Germany, among the largest in the country to reach the construction stage.

Did Elon Musk visit photovoltaic suppliers in China?

Shares of Chinese solar panel makers surged after a team of staff sent by Elon Musk had reportedly visited several photovoltaic suppliers in China.

What's new at Solar Energy Expo 2026?

Solar Energy Expo 2026, Poland's flagship PV-plus-storage trade fair, returned this month with a small show-floor footprint but a sharp focus on flexibility and market reform, as well as the storage, inverter and grid-forming technologies shaping the nation's next phase of grid integration.

This Commission department is responsible for the EU's energy policy: secure, sustainable, and competitively priced energy for Europe.

The targets have evolved consistently since first established to help the EU reach its ambitious energy and climate goals.

The 27 stocks in the IBD-tracked Energy-Solar industry group have collectively advanced nearly 17% during this month's stock market trade, including a 4.6% collective gain so far this week.

Get the latest updates on battery tech, grid-scale storage & green energy - with trusted news, trends & expert commentary

A range of solar technologies are available to harness the sun's energy in different ways. Solar photovoltaic (PV) panels, comprised of individual solar cells, convert sunlight into ...

The European Solar Charter, signed on 15 April 2024, sets out a series of voluntary actions to be undertaken to support the EU photovoltaic sector.

The renewable energy directive is the legal framework for the development of renewable energy across all sectors of the EU economy, and supports cooperation across EU ...

In 2024, the EU output of photovoltaic electricity accounted for 11% of the EU's gross electricity output, according to Ember. Continued growth in the solar energy sector is expected in the ...

News from the photovoltaic and storage industry: market trends, technological advancements, expert commentary, and more.

Solar energy is one of the world's most abundant and easily accessible sources of renewable power. But how well do you know it? Several distinct technologies harness the ...

List of all energy storage stocks as well as stock quotes and recent news.

In 2023, the solar photovoltaic sector in the EU and globally saw the prices of the panels plummet from ca. 0.20 EUR/W to less than 0.12 EUR/W. This unsustainable situation is ...

Energy-Storage.news Premium speaks to Daniel Dedrick, US-based BESS developer and operator, GridStor's CTO, about the company's strategies for navigating FEOC and Section 301 tariffs.

The revised Energy Performance of Buildings Directive will speed up the uptake of solar photovoltaics and solar thermal - both on residential and non-residential buildings - and ...

The growth prospects for renewable energy and battery storage stocks like AEE, CMS, BE and STEM remain promising, backed by growing global electricity demand.

The charter sets out a series of voluntary actions to be undertaken to support the EU photovoltaic sector.
