

To better understand the experiences of solar and storage project developers and managers, NYSERDA will be conducting an online survey with questions about solar and storage projects completed in ...

These benchmarks help measure progress toward goals for reducing solar electricity costs and guide SETO research and development programs. Read more to find out how these cost benchmarks are ...

The National Renewable Energy Laboratory (NREL) publishes benchmark reports that disaggregate photovoltaic (PV) and energy storage (battery) system installation costs to inform SETO's R& D ...

A comprehensive C& I energy storage site survey guide offering best-practice checklists for feasibility, safety, electrical systems, and performance optimization to maximize ROI in commercial ...

Site Survey Checklists Use these SepiSolar solar and energy storage checklists to gather all the information needed for an accurate solar or energy storage design.

The US Energy Storage Monitor is a quarterly publication of Wood Mackenzie Power & Renewables and the American Clean Power Association (ACP). Each quarter, new industry data is compiled into this ...

Solar-Plus-Storage Analysis For solar-plus-storage--the pairing of solar photovoltaic (PV) and energy storage technologies--NLR researchers study and quantify the economic and grid ...

An important deliverable of Task 1 is the annual "Trends in photovoltaic applications" report. In parallel, National Survey Reports are produced annually by each Task 1 participant. This document is the ...

2024 Electrification Contractor Survey Data from 1/2023 to 12/2023 For the first time, EnergySage's annual contractor survey expanded to include professionals operating in solar-adjacent electrification ...

Berkeley Lab collects, cleans, and publishes project-level data on distributed* solar and distributed solar+storage systems in the United States. The data are compiled from a variety of sources, ...
