

Protect wiring systems, solar panels and your roof with the solar panel bird deterrent mesh or kit. The solar clips do not pierce the solar panels; the system is designed to protect the integrity of expensive ...

A solar critter guard is a physical barrier that wraps around your solar array to block these uninvited guests, as well as prevent excess leaves from getting trapped under your panels.

With Ultimate Solar Guard galvanized welded steel mesh and matching aluminum fastener kits can be installed on almost all solar panel systems to prevent the invasion of birds, ...

This solar panel protection system accommodates solar panels in nearly any configuration or along nearly any roof type. Irregular roof surfaces such as Spanish tile are easily addressed without the ...

This system creates a secure physical barrier, ensuring pests are kept out of solar panel mounting areas. The Solar Kit attaches safely to solar panels without causing any damage or voiding the panel ...

With Ultimate Solar Guard galvanized welded steel mesh and ...

Easy cleaning: the solar panel and clips provide an easy keep clean-photovoltaic cleaning Robust construction: built to last, these clips are made from sturdy materials that resist wear and tear-solar ...

These guards typically consist of heavy-duty wire mesh that's installed along the edges of your panels, creating an impenetrable fence that keeps unwanted visitors out while allowing proper ...

Keep birds, rodents, and debris from nesting beneath your solar panels with the easy-install SolaTrim Pest Barrier designed for long-lasting protection.

Our front sheet ETFE film provides high levels of resistance to chemicals and weathering as well as low flammability, stress crack resistance, and insulating properties in solar photovoltaic panels.

Diamon-Fusion®; hydrophobic solar panel coating uses a two-step process that chemically bonds to the glass on the solar panels, creating an invisible barrier that prevents contaminants from sticking to the ...
