

How much does solar PV cost in Ireland?

Let's take a broader look at Solar PV pricing in Ireland. In 2025, our research shows installing solar panels on an Irish home generally costs from EUR3,200 to EUR15,600, depending on system size and setup. Grants are already factored into these prices.

What happened to solar panels in Ireland in 2023?

In May 2023, the Irish government abolished the 13.5% VAT on the supply and install costs of solar panels, instantly cutting about EUR1,000 off the average installation cost. Prices remain much the same this year compared to last. The grant has come down over this period so this points to a modest reduction in costs.

How long do solar panels last in Ireland?

The payback period for solar panels in Ireland typically ranges from 6 to 10 years, depending on factors such as system size, installation costs, household energy use, and available sunlight.

What type of solar panels are available in Ireland?

Panel Type and Quality: Solar panels vary in efficiency and durability. In Ireland, photovoltaic (PV) panels are the most popular choice, with options like monocrystalline panels offering higher efficiency and a longer lifespan. These may cost a bit more initially but can deliver better long-term savings.
