

Samoa Power Station Group Generator Plant

It is with great pleasure that I welcome you all today to witness the unveiling of our new diesel generators here at the Fuluasou Substation. This project marks a significant milestone in our efforts ...

The powerplant was commissioned in 2013 by the Samoa Electric Power Corporation (EPC). The Fiaga powerplant currently generates 85 million kilowatts per hour annually, which is 65% of the national ...

List of power plants in Samoa from OpenStreetMap

EPC engineers and Aggreko NZ Ltd specialists install hired generators at the Fuluasou substation to help stabilise Samoa's power supply during the national energy crisis.

Fiaga power plant is an operating power station of at least 24-megawatts (MW) in Aleisa, Samoa.

EPC invested \$10.7 million in acquiring a total of four generators. Three of these new generators are now operational at Fuluasou, while the fourth is servicing Savaii. Each generator has ...

As mandated to generate, distribute and sell electricity supply to all of Samoa, the EPC has connected up to 99% of Samoa's population. EPC has on record a total of 39,033 customers, using postpaid ...

Residents on Samoa's main island of Upolu can expect some relief after the arrival of five generators leased from a company in New Zealand on Monday to manage the country's ongoing ...

The recent breakdown of diesel generators at Samoa's Fiaga power plant was unexpected but not uncommon, according to Electric Power Corporation (EPC) General Manager ...
