

ADB has signed a transaction advisory services agreement with Samoa's Electric Power Corporation (EPC) to support the development of a solar photovoltaic and battery energy storage ...

Situated in a region with high solar irradiance, the territory is well-positioned to benefit from solar energy paired with energy storage systems to address intermittency and provide energy ...

Tesla specialists are on the ground assisting Samoa's electric power corporation engineers to ensure its battery energy storage systems are operating to support Samoa's energy ...

The Asian Development Bank (ADB) has entered into a transaction advisory services agreement with Samoa's Electric Power Corporation (EPC). The ADB will support the development of 40 MW of solar...

Constructed by Eastern Power Solutions, the solar-plus-storage projects will provide 10 MW / 20 MWh of critical clean capacity for the American Samoa grid.

Located on Tutuila and Aunu'u islands, the three solar-plus-storage projects have capacities of 4 MW/8 MWh, 5 MW/10 MWh, and 1 MW/2 MWh. These systems stabilize solar power ...

Evlo Energy Storage Inc, a subsidiary of Hydro-Québec, announced it has commissioned the first of three grid-scale energy storage projects in American Samoa. The first project adds 4 MW / ...

The initiative will involve the expansion of solar farms, battery storage systems, and energy efficiency programs to support domestic and commercial energy needs. Samoa currently ...

Incorporating cutting-edge battery energy storage systems, the project will improve grid reliability by mitigating intermittencies associated with renewable energy sources. The facilities will ...

EVLO Energy Storage (EVLO) has completed commissioning of a 4MW/8MWh battery energy storage system (BESS) in American Samoa.
