

What is a Static Shock server rack?

The 3RS Series of transportable military specification Static Shock Server Racks are available in 24" or 30" deep from rail to rail with a standard 19" rack width per ANSI/EIA-310-C specification and feature square-hole rack rails to accommodate either #10-32 US standard, or 6mm International standard cage nuts which are supplied with the cases.

Should you buy a server rack on eBay?

If you're in need of a place to deploy your server units in your home or office, the racks in this collection might be just what you're looking for. eBay offers myriad server racks to fit your needs no matter how many NAS units you have, and here's what you need to know about these racks before you make a purchase.

How do I choose the right rack for my servers?

Picking the right rack for your servers requires an assessment of your priorities. If you value simplicity over all other factors, you might prefer two-post racks. If protecting your servers from dust is all-important, however, an enclosed rack with a glass door might be the perfect solution for your needs.

What are the different types of server racks?

There are a variety of different styles of server racks, and each type houses servers in a slightly different way. Enclosed racks: These types of racks are enclosed all the way around. This creates a clean appearance, and it also protects servers from dust and other environmental conditions.
