

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery ...

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

For Mr. Furuta, a key client partnering with TomRobots, this challenge became the catalyst for a game-changing collaboration: deploying 5 units of our Solar Bin (grid-powered version) in Tokyo's subway ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

MOBIPOWER HYBRID Containerized Clean Power is Mobismart's high-capacity autonomous power solution, integrating solar panels, hydrogen fuel cell, and large-scale battery energy storage within a weatherproof ...

A plug-and-play solar power container is built around a highly integrated system architecture. All major components are selected and configured to work together as a unified energy platform, reducing ...

Our proven HELIOS Solarator(TM) products are mobile, containerized renewable energy stations trusted by major corporations and government bodies on remote, regional, and urban sites.

Solar-powered metro rail systems provide a sustainable alternative to conventional grid-powered transit by decreasing dependence on fossil fuels, lowering carbon footprints, and reducing environmental impacts.

Whether you need a solar powered compactor bin for an outdoor park, a grid-powered Solar Bin for an underground subway, or a hybrid solution for a mixed-use development, TomRobots has the ...
