

Solar-powered container manufacturers for fire stations

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

Our core team brings 15+ years in renewables and container manufacturing. From system design to factory testing, we size and deliver SolaraBox Mobile Solar Containers that meet site needs reliably and on schedule.

This partnership allows both organizations to focus on their strengths: Black Stump continues to innovate rapidly deployable solar-powered solutions, while our team manufactures high-quality, problem-solving containerized ...

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

Customers can customize power capacity, battery storage, inverter types, and auxiliary power sources like diesel generators or wind turbines to tailor the container for specific mission requirements.

Do you offer after-sales support for mobile solar PV containers? Yes, we offer comprehensive after-sales support including remote monitoring, maintenance services and technical support.

Discover the Foldable Solar Container offering lightweight, efficient, and portable renewable energy. Ideal for outdoor adventures, emergency backup, and remote work sites.

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

Plug-and-play solar power containers are integrated energy systems that combine photovoltaic generation, power conversion, energy storage, and control systems within a standardized container structure.

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial ...
