

The transformer-isolated Galaxy Series Rugged Inverters are designed for harsh environment rail, work train, and trolley applications.

Using the concept of configuration by power modules, where the width is much smaller than the depth, the AFW11M G2 provides a solution in a compact structure, increasing its reliability and facilitating its ...

ecification Sheet EvoCharge Power Cabinets are used with EvoCharge Power Stations and distribute charging power to as many as 6 or 8 charging outputs (charge ports) simultaneously depending on ...

Half-bridge evaluation kit populated with two MC33GD3160 single channel Silicon Carbide MOSFET gate drivers.

Modular rectifier cabinet, 300KW and 600KW optional, can be combined with ATESS PCS to form a DC coupling solution, suitable for large industrial scenarios.

The company"s main business includes the design, research and development, production, sales, and technical services of battery inverters, maximum power point tracking controllers, solar panels, as ...

Rectifier / inverter system cabinet of reduced height, populated with inverter modules, "EUE" electronic bypass switch and manual bypass, together with rectifier modules.

Pixii MultiCabinet solutions are modular battery energy storage systems that scale to your needs. It comes with smart functionality like time shift and peak shaving to reduce your energy cost, and it#180;s ...

600 kW high performance dual three-phase inverter; optimized for Wolfspeed"s Silicon Carbide (SiC); low inductance; conduction optimized XM3 Power Modules.
