

Lion E-Mobility AG, a Swiss lithium-ion battery pack manufacturer, is collaborating with M&#252;nchner Solarkraftwerke, a company specializing in the implementation of PV and battery storage ...

This article explores cutting-edge storage solutions reshaping grid stability while addressing renewable energy intermittency - a challenge affecting solar, wind, and hydroelectric systems alike.

Swiss lithium batteries now store 38% of the nation's solar energy production, with a notable case in Valais where a 20MW system reduced grid dependency by 62% during winter months.

Headquartered in Switzerland, we deliver scalable, site-ready solutions that integrate battery technology, power conversion and intelligent energy management into one reliable system.

With our large Swiss warehouse, we can quickly and easily deliver the desired Li-Ion cells to all of Europe. Our staff has years of experience with lithium ion batteries and can provide optimal support.

Redux Energy supplies Battery Energy Storage Systems (BESS) in line with Swiss quality standards, which are the highest in the world in terms of safety, longevity and performance.

Battery storage systems are crucial for the energy transition. Find out how Swissgrid is driving forward their integration into the grid.

In a collaboration with M&#252;nchner Solarkraftwerke, Lion E-Mobility AG, the Swiss manufacturer of lithium-ion battery packs, aims to deliver more than 40 energy storage projects, ...

The Swiss energy storage lithium battery industry isn't just selling products--it's crafting a blueprint for sustainable tech. From chocolate factories to robot-staffed labs, they're proving that ...

Everything you need to know about adding battery storage to your solar PV system in Switzerland. This in-depth guide covers top brands, costs, sizing, subsidies, installation, operation ...
