

## The latest news on Australian battery energy storage companies

The Australian Energy Market Operator's (AEMO) latest Quarterly Energy Dynamics report reveals that battery storage deployment accelerated during Q3 2025, with 2,936MW of new capacity and 6,482MWh ...

The nation's energy transition has reached a new milestone with an eight-hour-duration battery energy storage system (BESS) now eligible to begin commissioning and testing ahead of commercial ...

Synergy has energised its 500-MW/2,000 MWh Collie battery energy storage system (BESS) in Western Australia, the largest facility of its kind owned by a state-controlled company.

New South Wales has awarded long-term energy service agreements to six battery energy storage projects totaling 1.17 GW and nearly 12 GWh, lifting the state's contracted storage capacity to 30 ...

Melbourne-based battery technology company Reelectrify has secured \$25 million in funding from the Australian Renewable Energy Agency (ARENA) to fast-track the rollout of its world first battery energy ...

The battery energy storage sector in Australia has seen a boom over the last week, with tenders, acquisitions and data illustrating the sector's growth.

Australia is leading the global battery storage boom with AUD 2.4B invested in Q1 2025. Discover how big batteries are replacing coal, stabilizing the grid, and driving the nation's clean energy ...

Sixteen battery energy storage projects with a combined capacity of 4.13 GW / 15.37 GWh have been named as the winners of the Australian government's latest Capacity Investment Scheme tender.

Australia has taken a decisive step in reshaping its electricity grid, awarding more than 15 GWh of battery energy storage projects in what marks the country's largest procurement round to date.

The world's most powerful battery storage project under construction north of Sydney has been hit by a major failure of one of three giant transformers, creating a significant headache for the...
