

Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site.

Our foldable solar containers combine advanced photovoltaic technology with modular container design, delivering rapid-deployment, off-grid renewable energy with industry-leading efficiency.

A versatile mobile solar PV container offering plug-and-play green energy solutions with modular design, high-efficiency panels, and global mobility for off-grid and emergency power needs.

Solarators™ are currently deployed across Australia, the USA, the Pacific Islands, and Europe, with plans to expand into the Middle East and Asia. ROXBOX has entered a licensing agreement to ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

The entire solar power plant is delivered with all modules, rail system, accessories, and tools in a 20-foot standard container. With easy transportation by truck, train, or ship - it's the ideal system for ...

Designed to perfectly fit into shipping containers, the Solar PowerFold(TM) module can be transported to any destination worldwide and then deployed within minutes.

Explore our range of high-efficiency solar container solutions designed for businesses worldwide. Our containers combine cutting-edge technology with durability and ease of deployment.

We design a solar container that fits your needs and send you a personalized quote.

Highjoule's customized Foldable Solar Power Container offers innovative and portable solar energy solutions across the USA. Designed for easy transport and rapid deployment, these foldable ...
