

Vision Liquid Cooling Energy Storage Outdoor Cabinet

The All-in-One liquid-cooled energy storage terminal adopts the design concept of "ALL in one," integrating high-security, long-life liquid-cooled batteries, modular liquid-cooled PCS, intelligent ...

Our system is designed to enhance energy density and thermal performance, accelerate installation times, engineered for optimal serviceability, and minimizing capital expenditures (CAPEX).

EFFICIENT AND DURABLE Industry leading LFP cell technology up to 10,000 cycles with high thermal stability Liquid cooling capable for better efficiency and extended battery life cycle Higher energy ...

The liquid cooled AC/DC integrated outdoor cabin adopts modular integrated design and can reach 400V AC output, flexibly adapting to different scenarios. It meets the needs of peak shaving and load ...

Durable and reliable for frequent, long-term use, reducing replacement costs. The 0.5C Liquid-Cooled Energy Storage Battery Cabin features an integrated, modular, and standardized design with ultra ...

?233kWh/261kWh outdoor cabinet liquid-cooled energy storage system, integrating batteries, BMS, EMS, and fire protection systems. ? Liquid cooling ensures stable battery operation...

The energy storage system utilizes lithium iron phosphate batteries, which offer high energy density and long cycle life. The unit features an outdoor cabinet design, allowing for flexible expansion and ...

All-in-one design with liquid cooled battery rack pre-installed and a plug and play interface for auxiliary power supply, communication, and DC connection, which can be installed as a ...

The energy storage system has a separate firewall with a fire resistance time of 1h, and the length and height of the firewall shall exceed the outer contour of the energy storage system by 1.5m each.

HyperCube is a liquid-cooling outdoor cabinet suitable for energy storage. It features high safety, a long lifespan, high efficiency, stability, scalability, and rapid response.
