

Are solar panels a scam?

Scammers often advertise "\$0 down on owning solar panels" or "solar panels at no cost" but don't disclose that the homeowner won't own the panels. Lease and PPA agreements typically prevent homeowners from benefiting from most federal and state incentive programs and also have hidden fees and unfriendly financial terms.

What is solar panel fraud?

Solar panel fraud occurs when unscrupulous companies or individuals deceive homeowners through misleading sales practices, hidden fees, and false promises about solar energy systems. These deceptive practices have multiplied as the residential solar energy industry has expanded significantly over the past decade.

How do I avoid getting scammed with solar panels?

To avoid getting scammed, you need to know what to look out for and when to walk away. Here's our guide to spotting solar panel scams and finding a great installer. If something you see or hear from a salesperson sounds too good to be true, it probably is.

How do I report a solar panel scam?

If you suspect you've fallen victim to a solar panel scam, report it to the Federal Trade Commission (FTC) and your state's consumer protection agency. You should also file a complaint with the Better Business Bureau (BBB) and inform your family and friends.

The three most common solar scams are so-called free solar panels, requests for detailed personal or financial data right away, and misleading contracts.
