

# Wind Solar and Storage Construction Project

For the PPA RFP, Dominion Energy Virginia is seeking proposals for the acquisition of new solar, onshore wind, and energy storage projects in Virginia and North ...

Dozens of large-scale solar, wind, and storage projects will come online worldwide in 2025, representing several gigawatts of new capacity.

Located off the coast of Fengxian district on the northern shore of Hangzhou Bay, the project forms part of Shanghai's broader strategy to integrate offshore wind and solar energy. It will ...

**What We Do** We are a market-leading, independent power producer and service provider, delivering: wind (onshore and offshore), solar photovoltaic, storage, and electrical vehicle charging. View our ...

Master construction bidding for renewable energy projects. Learn strategies for solar, wind, and battery storage construction opportunities and requirements.

In 2025, we expect 7.7 GW of wind capacity to be added to the U.S. grid. Last year, only 5.1 GW was added, the smallest wind capacity addition since 2014. Texas, Wyoming, and Massachusetts will ...

China leads global utility-scale solar capacity for projects in announced, pre-construction, and construction phases. According to Global Energy Monitor's Global Solar Power Tracker, China has ...

The new construction-start rules apply to wind and solar projects on which construction starts on or after September 2, giving developers a short window to try to tidy up any construction ...

This article explores the potential hotspots for solar, wind, and hydroelectric power, while also delving into the challenges of grid reliability and the role of innovative solutions like small ...

The map features AES' projects currently under construction and in operation as of November 4, 2025. For more detailed information, please refer to our Investor Fact Sheet.

Since 2001, Invenergy has developed more than 200 projects, completed or in progress, for communities and customers domestically and around the world.
