

Turbines on Victoria's largest wind farm development are falling to bits, with pieces of serrated edging falling off its blades and flying across neighbouring farm paddocks and roads.

The blades of a 77-metre-tall wind turbine in Perth have snapped off and "crashed" to the ground - just 10 months after it was built. The huge blades on the structure broke and fell off...

On Saturday, July 13, a newly installed turbine at the Vineyard Wind farm started undergoing routine testing before it could send power to the grid. It had been operating for six hours ...

The turbine blades at insurance and investment company Aviva's Pitheavlis site fell off the tower on Friday morning. Aviva said its on-site security team were made aware of the incident...

A blade broke off of a wind turbine and landed in a cranberry bog in Plymouth, Massachusetts on Friday. It happened in the area of Head of the Bay Road near the Bourne town ...

A massive wind turbine blade crashed onto I-70 at the I-81 interchange in Maryland, forcing a two-hour shutdown of the roadway. The blade fell during transport and landed across multiple lanes ...

Multiple turbines that are taller than 750 feet are collapsing across the world, with the tallest--784 feet in stature--falling in Germany in September 2021.

An investigation is underway after wind turbine blades fell to earth in the grounds of a UK insurance giant. All three blades detached from the turbine at the offices of Aviva in Perth, Scotland.

PLYMOUTH -- Chief Neil Foley reports that the Plymouth Fire Department responded to Head of the Bay Road after a blade from a 300-foot-tall wind turbine fell off and landed in a cranberry ...

All three blades have fallen off a single wind turbine located on the grounds of British insurance company Aviva in Perth, Scotland.
