

Who owns the electricity supply industry in Zimbabwe?

The electricity supply industry (ESI) is dominated by government owned utility, namely Zimbabwe Electricity Supply Authority (ZESA) Holdings with its subsidiaries: Zimbabwe Power Company (ZPC) and Zimbabwe Electricity Transmission & Distribution Company (ZETDC).

Who is Zimbabwe Electricity Transmission & Distribution Company?

Zimbabwe Electricity Transmission and Distribution Company's mission is to be the preferred provider of electricity regionally and related services globally. The mission is to provide innovative, reliable and affordable ICT solutions that empower and satisfy our clients through leading technology.

Why does Zimbabwe have a power supply deficit?

The weak financial state of Zimbabwe's electricity companies is the most significant issue driving the country's power supply deficits and slowing the expansion of universal access to electricity services. Energy tariffs do not reflect the financial costs of energy generation and distribution, leading to significant losses for power companies.

Is Zimbabwe achieving universal electricity access?

Despite recent achievements, Zimbabwe's electricity sector still faces power supply deficits and slow progress toward universal electricity access. Peak electricity demand is projected to grow substantially, and achieving universal electricity access will require large investments, especially in solar power and grid expansion.
